

THE COMPONENTS

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

440TAC-2P, 140TAC

Your home is unique and deserves to have **custom glass options** like our ComforTech™ Warm Edge Glazing Systems which include decorative glass, Inspirations™ Art glass, internal blinds and internal and external grids in many grid patterns and colors.

 Impact Shield doors feature laminated glass.

Our **2½" casing** conveniently covers paint lines providing a professional installation. **Also available in 3½"**. Choose from Cherry, Mahogany, Oak and Poplar. Flat Fir and Poplar trim are available in paint, stain and glazed finishes.

High-performance, heat-resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications. **Plugless window trim** is standard on Embarq® and Signet® and optional for Heritage™† and Legacy™†.

1. Smooth (standard on select Signet Smooth doors and sidelites, optional on select Heritage Smooth and Legacy Smooth doors and sidelites) **2.** Embarq and Signet Cherry and Mahogany **3.** Embarq and Signet Oak and Knotty Alder **4.** Signet Fir **5.** Heritage and Legacy **6.** Modern Flat Trim (only available on models 112, 114, 115, 116 and 160 sidelites)

† See price list for available styles.

 Impact Shield doors have aluminum window trim.

The **Z-AC™ threshold** has an auto-adjusting riser and built-in sealing system that redefines how your door can perform for you. Standard on Signet and Legacy.

- **Automatically adjusts** to your entry door's changing needs over time, eliminating service calls
- Delivers **non-stop protection** against air and water infiltration
- **Saves money** and provides an improved door experience

The **ZAI™ threshold** has a manually-adjustable riser with complementary screw cover caps. Standard on Heritage.

Three **heavy-duty ball bearing hinges** come standard with every entry system.

Additional 4th hinge option for greater durability. (only available with FrameSaver®)

 Impact Shield doors have heavy-duty stainless steel hinges.

The energy efficient **weatherstripping** runs along the top and sides of the door and interlocks with the **CornerShield™** for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

We include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

We include a **solid brass fully adjustable strike plate** of our own exclusive design. This unique 2-piece construction makes our doors easier to custom fit.

The **dust box** in the deadbolt strike provides a barrier to air infiltration while providing a nice appearance that most other door manufacturers don't provide.

Bulb and dual blade sweep virtually eliminates drafts, keeping your home comfortable.

THE COMPONENTS

FRAMES

FrameSaver®

Real World Frame Issues

Shrinking and swelling occur from changes in relative humidity in the atmosphere. **Water wicks** up through wood fibers resulting in **paint peeling, rot and mold**. Traditional door frames begin to rot within 3-6 months of field installation.

FrameSaver Advantages

Our **finger-jointed composite bottom** never absorbs water, warps, cracks or rots, and paints and finishes just like wood. Plus, FrameSaver is backed by the industry's only **fully-transferable lifetime limited warranty** for ultimate peace of mind.

FusionFrame™

FusionFrame: A one-of-a-kind alternative to composite or wood jambs, this Endura® component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

Not available for transoms or outswing doors. See Price List for complete limitations and restrictions

*Finish warranty will match the finish warranty of door series

FrameSaver wood frame and brickmold with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with **PVC vinyl coated aluminum frame cladding** outside. **Also available with smooth cladding.**

Our **PermaTech™ Composite door frame system** option combines all the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.*

* No storm door applied. See full warranty for limitations

Steel L-Frame

Available on select Signet and Legacy door styles

- Aluminum door stop provides greater security and is more durable than wood.
- Energy efficient weatherstripping.
- 18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security.

(NOT tested for Certified Wind Load or Impact Shield regions)

Not all Steel L-Frames are ENERGY STAR® certified. Visit provia.com website for manufacturer's certification statement.
